

IMAGINE...

...A workplace staffed with happy, energetic, and focused employees.

Sound impossible in today's hectic, stressed-out climate? Now imagine the feeling you have after a relaxing 15 minute massage. Studies have shown that your brain actually begins to recharge in a matter of minutes. How much of an increase in your employee's productivity and moral could be achieved if we were able to recharge the body and mind in a matter of minutes?

Welcome to O.C.A. Benefit Services On-Site Massage Program!

In conjunction with our Wellness Program, or as a stand-alone benefit that can be offered with a Wellness Fair or simply on a regular basis, we offer a guaranteed path to increase moral and productivity in the workplace. Our licensed massage therapist will come on-site on a weekly, biweekly or monthly basis and provide stress-relieving chair massages in 15 minute sessions.
